# ROMAN'S PERSONA TEMPLATE

 PICTURE & NAME	 DETAILS	 GOAL
<p>What does the persona look like? What is its name? Choose a realistic and believable picture and name.</p> <p>Driver : Tom</p> <p>Passenger : Jerry</p>	<p>What are the persona's relevant characteristics and behaviours? For instance, demographics, such as age, gender, occupation, and income; psychographics, including lifestyle, social class, and personality; and behavioural attributes like usage patterns, attitudes, and brand loyalty. Only list relevant details.</p> <p>Tom</p> <p>Work as professor at Virginia Tech for more than 10 year.</p> <p>Is 45 years old, holds a PhD of Computer Science degree.</p> <p>Lives in Blacksburg, VA alone.</p> <p>Daily drive to campus from Christiansburg VA.</p> <p>Very kind, open to help others.</p> <p>keen on sharing opinions with other</p> <p>Jerry</p> <p>Student at Virginia Tech Blacksburg campus.</p> <p>Is 22 years old, pursuing the Masters of Computer Engineering degree.</p> <p>Living in Christiansburg VA.</p> <p>Daily commute to campus for 2 hours.</p> <p>Holding a driving license permit, but do not have a car.</p> <p>Would like to meet new friends.</p> <p>do not have a social anxiety disorder</p>	<p>What problem does the persona want to solve or which benefit does the character seek? Why would the persona want to use or buy the product?</p> <p>Tom</p> <p>Willing to get some extra income.</p> <p>Willing to get in touch with others more</p> <p>Jerry</p> <p>Hope to save time from daily commute.</p> <p>Wish to receive new idea from users.</p>

## 3. User Stories

### SSO System:

As a new user, I want to create an account so that I can use the application.

As a user who cares much about safety, I want to take the ride with Virginia Tech people so that I can avoid potential risks.

As a user, I want to log in and log out so that I can access the application.

### Post System:

As a passenger, I want to find rides so that I can go to a place even if I don't have a car.

As a passenger, I want to post my travel plan so that other drivers who have the same schedule can pick me up.

As a driver, I want to share rides with others so that I can earn some money and provide convenience to the passengers.

As a driver, I want to search for a passenger who shares the same schedule so that I don't have to write a post.

As a driver, I want to add my available spots to the post so that the number of passengers will not exceed my car capacity.

### Profile System:

As an essential user, I want to add my contact information so that others can reach out to me.

As a driver, I want to add my car information so that others know I can provide rides.

As a user, I want to have my credit shown on my page so that the other user knows I am accountable.

As a user, I want to work with those with high credit points.

As a user, I want to edit my profile so that the information is updated.

### Communication System:

As a user, I want to have a chat box to communicate with others so that we can talk about details for this ride.

As a user, I want to get email notifications so that I won't miss any messages on the platform.

### Order System:

As a driver, I want to send a request to the passengers so that they can confirm it to make a deal, and I will have their contact details.

As a passenger, I want to confirm the request from the drivers so that I can finalize it and have their contact details.

As a user, I want to rate the others who share the ride with me so that I can help maintain a good environment for the users.

As a user, I want to cancel the order so that I don't have to take the ride when I change my schedule.

## 4. Product Backlog - User Stories & Task & Test & Hours

The screenshot shows the Jira Software interface for the 'Ride N Share' project. The sidebar on the left contains navigation options: Planning (Roadmap, Backlog), Board, Reports, Issues, Development (Code, Releases), Project pages, Add shortcut, and Project settings. The main area displays the 'Backlog' for 'Ride N Share'. It includes a search bar and filters (Epic, Versions, Type). The backlog is organized into two sprints: 'RNS Sprint 1' (2 Oct - 31 Oct, 31 issues) and 'RNS Sprint 2' (31 Oct - 14 Nov, 58 issues). The backlog lists user stories and tasks, each with a status (e.g., 'POST SYSTEM'), a priority (e.g., '0'), and a 'TO DO' button. A 'Quickstart' button is visible at the bottom right.

## Details as follows:

### SSO System:

User Stories	Taks	Test
As a new user, I want to create an account so that I can use the application.	<ul style="list-style-type: none"><li>• Put a “Sign Up” button on the login page. (1h)</li><li>• Create a new db to store users. (4h)</li><li>• Create a page to display user signup. (6h)</li><li>• Add a login link to the login page. (1h)</li></ul>	RideNShare can provide users with a university email register and login.
As a user who cares much about safety, I want to take the ride with Virginia Tech people so that I can avoid potential risks.	<ul style="list-style-type: none"><li>• Put a “Sign up with Google” button on the signup page. (1h)</li><li>• Create a page to display authentication info with Virginia Tech login portal. (4h)</li></ul>	RideNShare can provide users with a university email register and login.
As a user, I want to log in and log out so that I can access the application.	<ul style="list-style-type: none"><li>• Put a “Log In” button on the login page. (1h)</li><li>• Create a page to display user login. (6h)</li><li>• Add a signup link to the signup page. (1h)</li><li>• Put a “Sign Out” button on the main page. (1h)</li></ul>	RideNShare can provide users with a university email register and login.

### Post System:

User Stories	Taks	Test
As a passenger, I want to find rides so that I can go to a place even if I don't have a car.	<ul style="list-style-type: none"><li>• Put a “Leaving from” drop-down box on the main page. (2h)</li></ul>	Users can search for an available ride with given situations.

	<ul style="list-style-type: none"> <li>• Put a “Going to” drop-down box on the main page. (2h)</li> <li>• Put a “Departing” time interval selection on the main page. (2h)</li> <li>• Put a “Search” button on the main page. (4h)</li> <li>• Create a page to display the search processing. (6h)</li> <li>• Create a page to display the list of posts as searching results. (6h)</li> </ul>	
As a passenger, I want to post my travel plan so that other drivers who have the same schedule can pick me up.	<ul style="list-style-type: none"> <li>• Create a plan information layout to add plan information.</li> <li>• Put a TimePicker box to choose date and time.</li> <li>• Put a Text Field to input the start point.</li> <li>• Put a Text Field to input destination.</li> <li>• Put a submit button to submit plan information.</li> <li>• Create a plan db to store passenger's plan information.</li> </ul>	The ride user posted has same information with users' input.
As a driver, I want to share rides with others so that I can earn some money and provide convenience to the passengers.	<ul style="list-style-type: none"> <li>• Create a ride information layout to add ride information.</li> <li>• Put a TimePicker box to choose date and time.</li> <li>• Put a Text Field to input the start point.</li> <li>• Put a Text Field to input destination.</li> </ul>	The ride user posted has same information with users' input.

	<ul style="list-style-type: none"> <li>• Put a stop drop-down box to choose your preferred stops.</li> <li>• Put a submit button to submit ride information.</li> <li>• Create a ride db to store driver's plan information.</li> </ul>	
As a driver, I want to search for a passenger who shares the same schedule so that I don't have to write a post.	<ul style="list-style-type: none"> <li>• Put a "Leaving from" drop-down box on the main page.</li> <li>• Put a "Going to" drop-down box on the main page.</li> <li>• Put a "Departing" time interval selection on the main page.</li> <li>• Put a "Search" button on the main page.</li> <li>• Create a page to display the search processing.</li> <li>• Create a page to display the list of posts as searching results.</li> </ul>	Users can search for the available ride with give conditions.
As a driver, I want to add my available spots to the post so that the number of passengers will not exceed my car capacity.	Put a capacity Text Field to input your passenger limit on the ride information page.	Test if maximum confirmed requests equals to the limit of capacity.

#### Profile System:

User Stories	Task	Test
As an essential user, I want to add my contact information so that others can reach out to me	Put a input form and a submit button on the profile page 2.5	Test profile input form submit

As a driver, I want to add my car information so that others know I can provide rides	Put a input form and a submit button on the profile page 2.5h	Test profile input form submit
As a user, I want to have my credit shown on my page so that the other user knows I am accountable	Put a textbox to on the profile page to show credit 1h	Test textbox shows correct personal credits.
As a user, I want to work with those with high credit points.	Add ranking strategy with the qualified user on the communication page. 12h	Test show users with credit desc order
As a user, I want to edit my profile so that the information is updated	<ul style="list-style-type: none"> <li>Put a button to request the update to the profile information in the database. 2.5h</li> <li>Make the profile page changeable by users, and this function can be activated by a button. 12h</li> </ul>	<ul style="list-style-type: none"> <li>Test the button appearance and function work well.</li> <li>Test the profile page works if users click the button.</li> <li>Test the profile data is changed by users.</li> </ul>

#### Communication System:

User Stories	Task	Test
As a user, I want to have a chat box to communicate with others so that we can talk about details for this ride.	<ul style="list-style-type: none"> <li>Have a chat box in the website, making it has send button and text area. 12h</li> <li>Function sending and receiving messages. 12h</li> </ul>	<ul style="list-style-type: none"> <li>Test the chat box appears appropriately on the website.</li> <li>Test the chat box appear messages properly.</li> <li>Test the char box send button.</li> <li>Test the receiving messages function.</li> <li>Test sending messages function.</li> </ul>

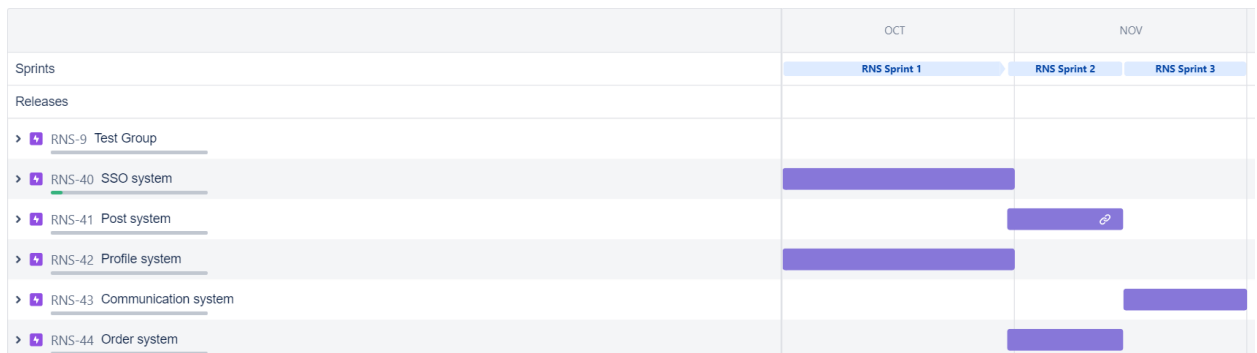

As a user, I want to get email notifications so that I won't miss any messages on the platform.	<ul style="list-style-type: none"> <li>• Get a signal when there is a new message from the other user. 2h</li> <li>• Send an email to the user when the system gets this signal. 3h</li> </ul>	<ul style="list-style-type: none"> <li>• Test the signal when there is a new message.</li> <li>• Test the function of sending an email.</li> </ul>
---	--	--

### Order System:

User Stories	Task	Test
As a driver, I want to send a request to the passengers so that they can confirm it to make a deal, and I will have their contact details.	<ul style="list-style-type: none"> <li>• Put a button for the driver to send a request to the passenger. 1h</li> <li>• Create an order in the database to record the order. 4h</li> <li>• Send the request to the passenger. 3h</li> </ul>	<ul style="list-style-type: none"> <li>• Put a button for the driver to send a request to the passenger. 1h</li> <li>• Create an order in the database to record the order. 4h</li> <li>• Send the request to the passenger. 3h</li> </ul>
As a passenger, I want to confirm the request from the drivers so that I can be confirmed and have the contact details.	<ul style="list-style-type: none"> <li>• Put a confirm button on the request page. 1h</li> <li>• Create a new order to record this drive. 2h</li> <li>• Put a driver info link at the order page. 1h</li> <li>• Show the driver's contact message on the driver info link page. 2h</li> </ul>	<ul style="list-style-type: none"> <li>• Click the confirm button on the request page, show up the generated order 1h</li> <li>• Click the driver info link on the order page, jump to the driver contact link info page 2h</li> </ul>
As a user, I want to rate the others who share the ride with me so that I can help maintain a good environment for the users.	<ul style="list-style-type: none"> <li>• Put a finish drive button on the order page. 1h</li> <li>• Create a rate page after finishing the order. 3h</li> <li>• Create a rate form for users to rate the other. 3h</li> </ul>	<ul style="list-style-type: none"> <li>• click on the finish order button on the order page, jump to the rate page 1h</li> <li>• choose rate of this drive, fill in the form, click on the ok button on the rate page 2h</li> </ul>

	<ul style="list-style-type: none"> <li>• Create a confirm button on the rate page.1h</li> <li>• Calculate the final rate of the user and store it in the database.2h</li> </ul>	<ul style="list-style-type: none"> <li>• click on the profile of the user and see the rate of the user is correct 3h</li> </ul>
As a user, I want to cancel the order so that I don't have to take the ride when I change my schedule.	<ul style="list-style-type: none"> <li>• Put a cancel button on the order page.1h</li> <li>• Create a reason page after clicking on the cancel button.3h</li> <li>• Put a confirm button on the reason page.1h</li> <li>• Rate the reason and calculate the credit point for the user, store it in the database.3h</li> <li>• Notify the other user that you canceled the order using email/text.4h</li> </ul>	<ul style="list-style-type: none"> <li>• click on the cancel button on the order page, a message shows the order is canceled is showed, jump to the reason page 3h</li> <li>• fill in the reason form ,and click the confirm button. 3h</li> <li>• choose the person profile, and can see the credit point of the person is correct(influenced by cancel) 2h</li> <li>• Users can search for an available ride. 1h</li> </ul>
